

Barrage Stratego

Information about Barrage Stratego

Barrage Stratego is a shorter version of the classic game. With ONLY 8 pieces each, the game is often over very quickly. This is a game which largely depends on bluffing the opponent in order to get a slight edge (which is difficult to get back if you are playing a good player).

With only 8 pieces, EVERY piece is vital (even the scouts).

You play on the same classic board as normal Stratego and have these 8 pieces.

1 x Flag,

1 x Marshall,

1 x General,

1 x Miner,

2 x Scouts,

1 x Spy

1 x Bomb.

You may set up the pieces anywhere within the normal 40 squares of a typical side of a Stratego board. (10x10 squares) The object of the game and the ability of the pieces are the same as "Classic Stratego".
